Re: *Ex Parte* Communication for Unlicensed Operations in the TV Broadcast Bands in ET Docket No. 04-186; Additional Spectrum for Unlicensed Devices Below 900 MHz and in the 3 GHz Band: ET Docket No. 02-380

Dear Ms. Dortch:

This is to notify you that on September 18, 2007, the broadcasters identified below met with Commissioner Tate and discussed broadcasters' argument that the potentially harmful proposal before the Federal Communications Commission would permit the introduction of unlicensed personal and portable transmitting devices in the digital broadcast spectrum. Whit Adamson, President, Tennessee Association of Broadcasters, Nashville, Tennessee and Debbie Turner, General Manager WTVF-TV, Nashville, Tennessee. The broadcasters noted their concerns with the proposal that would undermine the impending transition from analog to digital transmission of over-the-air broadcast signals.

In accordance with Section 1.1206 of the Commission's Rules, 47 C.F.R. § 1.1206, one copy of this letter is being filed electronically along with letter to the Commissioner (attached). Please direct any questions concerning this matter to the undersigned.

Respectfully submitted,

Whit Adamson  
President, TAB
